Inspect. Est. 250+ .....

## FLAG AND EARLY MACHINE CANCELS

The award winning collection formed over many years by Larry Paige. This is one of the finest and most comprehensive collections of these cancels ever offered at auction. Except for the exceptionally rare items (or when we just couldn't help ourselves), most of the cards/covers have been left in groupings as collected and many are still on his pages with write ups, to retain the integrity of the collection and the amount of data collected on earliest and latest known dates, indicia usage, errors, multiple strikes, etc. Inspection is an absolute must for the serious flag collector. The collection is offered first by CITY and then by MACHINE manufacturer, and then by cancel TYPE. Numbers and types referred to are from David Sessions book "The Early Rapid Cancelling Machines of Canada" (and some later from the Ed Richardson handbook). Notations as to period of usage, dates, etc, have been made where warranted, but when absent, the information re rarity factors, etc, in the book have been assumed to be correct. Cancels can be assumed to be fine strikes or better, with clearly legible dates and letters, unless otherwise stated.

## HAMILTON
